

Together We Can Break The Cycle Of Hereditary Breast and Ovarian Cancer in Women

Did you know that 1 out of 40 Ashkenazi Jewish Women has a mutation in their genes which gives them a 33-50% risk of developing breast cancer by age 50 and 56-87% risk by age 70?

Did you know that 1 out of 40 Ashkenazi Jewish Women has a mutation in their genes which gives them a 27-44% risk of developing ovarian cancer by age 70?

With genetic testing, you will gain knowledge of your risk and this knowledge will empower you to make important decisions about your health.

To learn more about genetic testing for hereditary breast and ovarian cancer please visit our website:

Jacobintl.org or contact your healthcare provider.

Genetic Testing + Knowledge = Prevention
